BICSI India believes in recognizing and rewarding excellence in both technical and sustainable achievements of professionals and organizations in the information and communications technology (ICT) industry. To demonstrate its belief, BICSI India began instituting "BICSI INDIA Excellence Awards" in 2025. These awards will be facilitated annually in India. The BICSI India Excellence Awards will serve as the only Structured Cabling Industry awards in the country.

ICT Infrastructure Design Excellence Award

This award recognizes excellent efforts and expertise in designing cutting-edge, customer-focused networks that encompass fit-for-purpose technologies with ease of deployment and use.

ICT Infrastructure Installation Excellence Award

These awards recognize excellence in installation efforts and expertise in delivering the cabling and infrastructure for tomorrow's network, today. Projects are categorized based on project value of 5 crore & above or size of 15,000 sqft & above.

ICT Distributor Excellence Award

This award is to recognize excellence in balancing demand and supply through selecting apt products, meeting expectations of stakeholders, and delivering the products to the project sites adhering to the product safety and redefined timelines.

ICT Professional Excellence Award

This award is to recognize and reward the extraordinary efforts of a BICSI India Individual member who has contributed time and effort to support BICSI India and the ICT industry.

ABOUT BICSI

BICSI is a professional association supporting the advancement of the information & communications technology (ICT) profession.

BICSI provides information, education, and knowledge assessment for individuals and companies in the ICT industry. BICSI serves more than 26,000 ICT professionals, including designers, installers, and technicians. These individuals provide the fundamental infrastructure for telecommunications, audio/video, life-safety, and automation systems. Through courses, conferences, publications, and professional registration programs, BICSI staff and volunteers assist ICT professionals in delivering critical products and services, and offer opportunities for continual improvement and enhanced professional stature.

Headquartered in Tampa, Florida, USA, BICSI Membership spans nearly 100 countries.

ABOUT BICSI India

The establishment of BICSI India is an exciting development for the ICT industry in India, as it provides a direct link to over 26,000 skilled professionals in India and around the world, and most importantly provides the opportunity to tap into a vast ICT knowledge base. Over the past 21 years, BICSI India has grown considerably, and we currently have members from consulting, manufacturing, distribution, and systems integrations backgrounds.

The BICSI India learn-to-succeed initiative has made a considerable improvement in our membership base and in the number of BICSI credential holders over the past few years, and the affiliate looks forward to growing stronger and expanding our reach, serving the ICT professional community in the times to come.
