The BICSI India Annual Conference and Expo 2026 showcased the latest AI digital transformation innovations and ICT capabilities. The theme for the conference was “Building the Digital Spine: Future-Ready ICT for an AI-Powered India”.

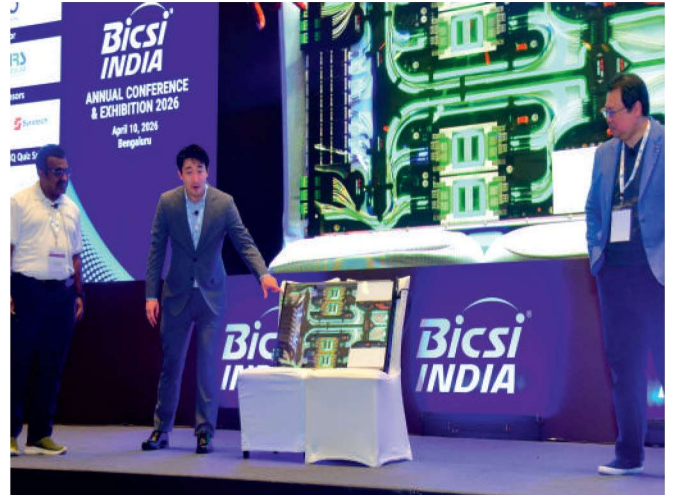

Mr. Chintak Dalal, Chair of the BICSI India Leadership Committee, formally welcomed the congress and expressed deep pride in the collective achievements of the community. In alignment with the conference theme, “Building the Digital Spine: Future-Ready ICT for an AI-Powered India,” he underscored the organization's steadfast commitment to leveraging technology as a catalyst for bridging the digital divide, advancing inclusivity, and fostering sustainable innovation. He further emphasized the critical role of the ICT ecosystem in shaping a resilient, future-ready digital infrastructure for the nation.

A concurrent exhibition was also part of the conference which had organizations such as Senko, Fluke Networks, Modular Rack Systems, Netrack Enclosures, 3C3, AEM Networks, D-Link, Exfo, Omada by Tp Link, Vertiv, Genius Network, Smart-I and Syrotech exhibiting their ICT offerings. Participants also had the privilege to read & discuss ICT credentials & standards at the BICSI arena.

BICSI India Introduces First-Ever Fireside Chat, Elevating Conference Experience

BICSI India successfully hosted its first-ever fireside chat at its recent conference, marking a significant milestone in the evolution of its event programming. The session by Senko Advanced Components was met with an overwhelmingly positive response from attendees, highlighting its value as a dynamic and engaging addition to the conference agenda. The session was led by Dr Bernard Lee, RCDD, Senior Director of Strategic Technology & Innovation, SENKO Advanced Components, Mr Takeshi Kasai, Associate Senior Technologist, SENKO Advanced Components and Mr Icy Varghese, Business Development Manager (India), SENKO Advanced Components. This new initiative reflects BICSI India's continued commitment to enhancing knowledge-sharing platforms and delivering diverse, high-impact content to its members and stakeholders.

ICT IQ Quiz, Bengaluru - 2026

An ICT Quiz on testing the understanding on latest ICT terminologies & industry best practices was conducted and evoked an enthusiastic response from the audience.

BICSI India Cabling Skills Challenge 2026

BICSI India Cabling Skills Challenge Grand Finale was concurrently held during the conference. The finalists had to go through several rounds of testing skills and challenges which was juried by a 3-member team of Industry experts. Mr. Arun Kumar Sharma from Velocis Systems Pvt Ltd was crowned “**The BICSI India Installer of the year 2026**”.

BICSI India Credential Holders Felicitation

BICSI India honoured its newest credential holders for achieving the highly esteemed BICSI certification—an elite distinction not pursued by many, reflecting their advanced expertise, perseverance, and professional excellence

Mr. Chintak Dalal, Chair – Leadership Committee, BICSI India, extended a warm and proud welcome to the distinguished gathering, setting a celebratory tone for the prestigious BICSI India Beacon Awards for Excellence.

M/s. Relight ICT Consulting has been honored with the award in the ICT Infrastructure Design category, while M/s. PV Lumens India Pvt Ltd has been recognized in the ICT Distribution category.

Mr. Ketan Kothari, Mr. Chintak Dalal along with Mr. Nandakumar Kuniyath did the honors for Chairman's Eagle Award winner Mr. Ninad M Desai, RCDD, NTS, OSP, TECH, CT, Consulting Specialist ICT Network Infrastructure & OSP Design, Optinext Technologies Pvt Ltd

The Jury of the BICSI India Beacon Awards for Excellence 2026 were felicitated for their continued support and guidance. Their expertise and commitment have been instrumental in upholding the integrity and prestige of the awards.

ICT SCS Installer Training Program - April 7th & 8th 2026, Bengaluru

The ICT SCS Installer Training Program, held on 7–8 April at Hotel Capitol, Bengaluru, delivered an intensive and engaging two-day learning experience focused on practical excellence in structured cabling. The program was conducted by Mr. Ninad M Desai, RCDD, NTS, OSP, TECH, CT, Optinext Technologies Pvt Ltd.

Day 1 set the tone by moving participants beyond theory into hands-on application. Through guided best-practice sessions supported by BICSI ICT Installation Practices Field Guides, participants, built confidence across core installation activities including cable identification, bunching and pulling, preparation, termination, testing, and troubleshooting. Each session emphasized not just the “how,” but the “why,” enabling deeper technical understanding. The learning experience was enriched through a blend of live demonstrations, guided self-learning, real-world scenarios, and interactive troubleshooting discussions.

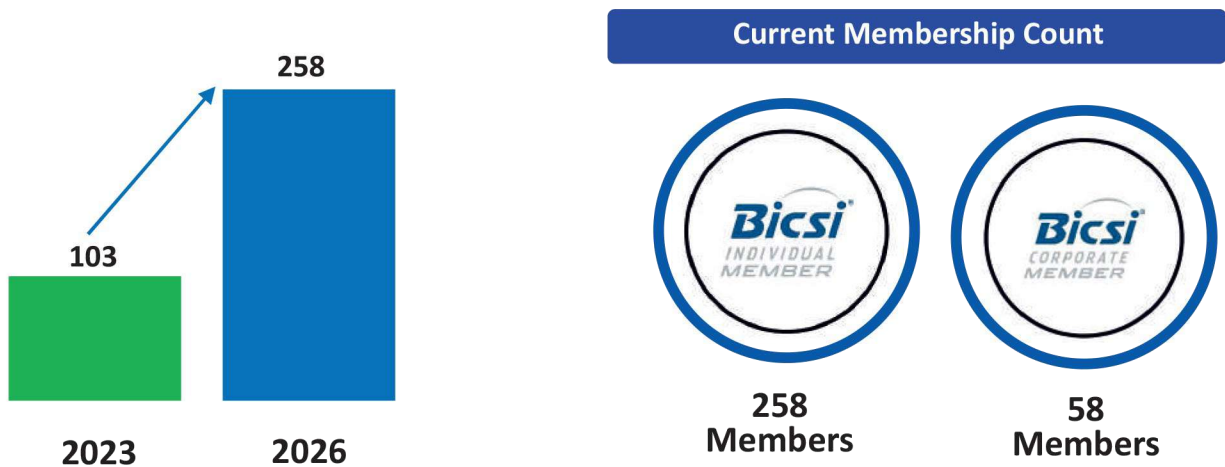

Day 2 shifted focus to precision-driven aspects of installation, particularly optical fiber dressing and splicing. Participants gained a strong appreciation for the discipline and attention to detail required for high-quality fiber installations, including bend radius management, neatness, and splice integrity. These hands-on sessions sparked active participation and knowledge exchange.

The second day also highlighted critical yet often overlooked areas such as firestopping, and bonding and grounding—prompting insightful discussions around safety, compliance, performance, and long-term reliability. The program concluded with an in-depth session on optical fiber testing and troubleshooting, covering testing methods, fault identification, and best practices for ensuring dependable network performance.

Overall, the training program provided a well-rounded platform for installers and project managers to enhance their technical skills, share experiences, and strengthen professional competence through practical, real-world learning.

BICSI India Affiliate - Membership Growth

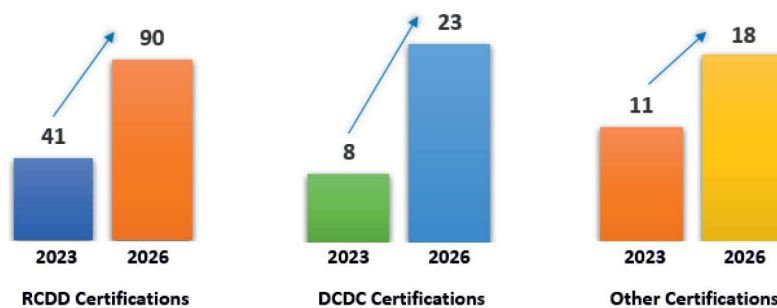

BICSI India has achieved a significant milestone, reaching a total of 250+ individual members and 58 corporate members.

This significant growth has been driven by the dedicated efforts of our committee members, BICSI India Affiliate and the active engagement of our community, which continues to play a crucial role in our success. From a modest base of just **11** members in 2011, BICSI India has grown to a membership of **258** in 2026, including **58** corporate members—underscoring its steady expansion and strong industry participation.

Looking ahead, BICSI India aims to grow its membership to **500**, further strengthening its contribution to the ICT community in India. The continued support and involvement of all members will be key to achieving this milestone and advancing the organization to greater heights.

BICSI India Affiliate - Credential Growth

As of 2026, the BICSI India Affiliate continues to play a pivotal role in advancing India's ICT workforce. The growing number of certified professionals highlights strong demand for expertise in designing, managing, and evolving ICT infrastructure—from smart cities and data centers to next-generation networking solutions. Through globally recognized credentials and locally relevant training, BICSI India enables professionals to enhance industry standards, support technological innovation, and contribute meaningfully to the country's digital and infrastructure growth. This sustained momentum is expanding the pool of skilled ICT talent and strengthening India's position as a leader in technological advancement.
